

AHSANULLAH UNIVERSITY OF SCIENCE AND TECHNOLOGY
Program: Bachelor of Science in Computer Science and Engineering
Course Number: CSE 3223

Student ID: _____

Time: 30 Minutes

Total: 20

As part of your systems analysis project to update the automated accounting functions for Xanadu Corporation, a maker of digital cameras, you will interview Leo Blum, the chief accountant.

1. Write four interview objectives covering his use of information sources, information formats, decision-making frequency, desired qualities of information, and decision-making style. [4]
2. State which structure you will choose for this interview with proper justification. [13]
3. Write three open-ended questions that you will email to Leo prior to your interview. [3]
